- A Third-Party Administrator (TPA)<sup>2</sup> fee is applicable to this policy and forms part of the cost for administering healthcare services, including claims processing, hospital network management, and customer service support. The TPA fee is charged by the appointed third-party administrator engaged by the Company to manage selected administrative functions under this insurance plan. This fee is imposed to cover the operational costs associated with these services.

<sup>1</sup> Family members refer to husband, wife and children.

<sup>2</sup> The TPA fee is reviewed periodically to ensure it remains fair and proportionate to the cost-of-service delivery. TPA Fee Amount: RM18.50 / RM45.00 per year subject to ST. Any revisions to the fee will be communicated to the Policyholder with 21 days’ advance notice.

#### Step 3 Can you afford the increase in premiums over time?

Premium Projection Table (e.g. Plan PC-2, Age 30, Good Health Condition)

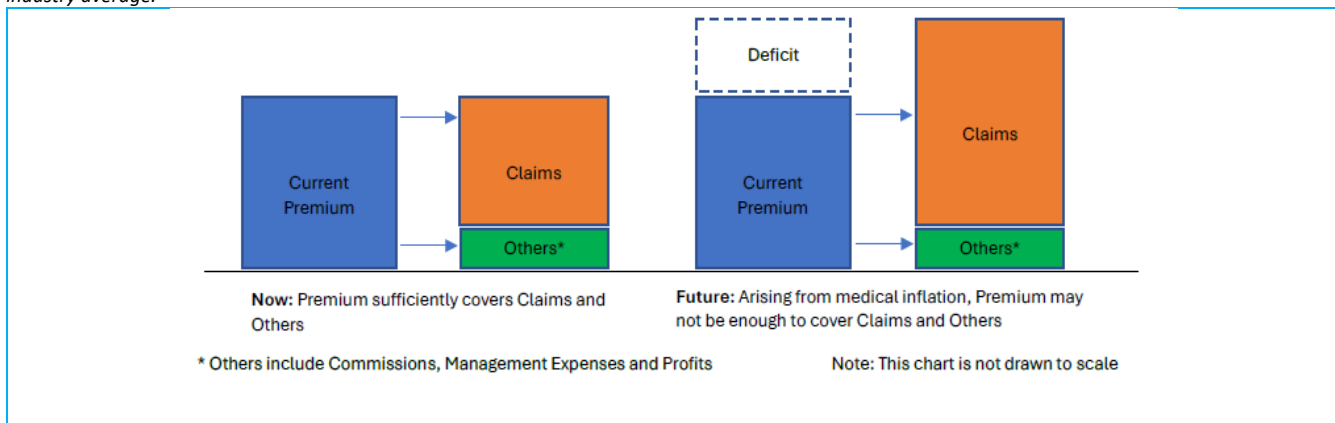

Age	Current premium upon attained age (RM)	Estimated premium		Over the long term, you can reduce premiums payable by choosing plans with:
		Based on medical inflation of 7% <sup>1</sup> per annum (RM)	Based on medical inflation of 10% per annum (RM)	
30	585.00			a) A lower annual/lifetime limit. b) A lower plan
35	731.00	1,025.00	1,177.00	
40	731.00	1,438.00	1,896.00	
45	954.00	2,632.00	3,985.00	
50	954.00	3,692.00	6,418.00	

- The projection above is solely for **illustration purposes only.**
- Premiums are affected by both the increase in treatment costs and the increased use of healthcare services by policy owners. This can result in actual medical inflation rate being higher or lower than the above illustration. We are undertaking the necessary cost containment measures in co-operation with other stakeholders to manage premium increases over time.

- The bulk of your premiums will go to paying claims. On average, for every RM1.00 of premium paid, RM0.72<sup>2</sup> is allocated to pay claims. The remainder goes to pay commissions to insurance agent, management expenses and profits of the insurers.

<sup>1</sup> This is the year-on-year increase in the average treatment cost as billed by hospitals to the insurance and takaful industry from years 2020 to 2023.

<sup>2</sup> This is based on insurance and takaful industry average data from years 2021 to 2023. The actual experience of the plan you purchase may differ from the industry average.

### Step 4 What else should you be aware of?

- You must answer the questions that we ask fully and accurately. Failure to take reasonable care in answering the questions may result in rejection of your claim or termination of your policy.
- If you decide you do not want this policy within 15 calendar days after the policy has been delivered to you, you can contact us to cancel your policy and receive a full refund (less any medical examination expenses incurred).
- Your coverage will only start 30 calendar days after the effective date of the policy.
- The commissions<sup>3</sup> paid to your insurance agent is 15% of the annual premium.

This is not a complete list. Please read your [policy contract](#) carefully for full details on the key terms and conditions.

<sup>3</sup> These figures are based on the current premium upon attained age.
